# 1. Executive Summary

---

The US pet grooming services market is valued at **\$2.06 billion (2024)** and growing at **6.7% CAGR** through 2030. With over **169,000 pet grooming and boarding businesses** operating nationwide, the opportunity for a modern, purpose-built SaaS platform is massive. The grooming-specific software market alone is **\$347 million** and projected to grow at **12.8% CAGR** through 2033, reaching over \$1 billion.

Pet Grooming Pro is positioned to capture this opportunity by solving the top operational pain points grooming businesses face: **scheduling chaos, no-shows, manual client management, and lack of a professional booking experience**. Our multi-tenant SaaS platform provides appointment management, public booking portals, real-time chat, staff scheduling, and automated reminders — everything a grooming business needs to run efficiently.

This document defines our **Ideal Customer Profile (ICP)**, segments the market into actionable tiers, and provides a **curated lead list of 100 real prospective clients** ready for outreach.

## 2. Ideal Customer Profile (ICP)

---

### Primary ICP: Mid-Size Independent Grooming Salons

Our highest-value target is the **independent pet grooming salon with 2-10 groomers**, generating **\$150K-\$500K+ in annual revenue**. These businesses are large enough to feel the pain of manual scheduling and client management, but small enough to lack IT staff or enterprise solutions. They are actively looking for affordable, easy-to-adopt tools.

Attribute	Primary ICP	Secondary ICP
<b>Business Type</b>	Independent grooming salon	Mobile grooming operator
<b>Team Size</b>	2-10 groomers	1-5 groomers / vans
<b>Annual Revenue</b>	\$150K - \$500K+	\$100K - \$300K
<b>Location</b>	US metro & suburban	US metro (service radius)
<b>Current Tools</b>	Paper, spreadsheets, basic apps	Phone/text booking, paper logs
<b>Tech Comfort</b>	Moderate — uses smartphone, social	Moderate — mobile-first mindset
<b>Decision Maker</b>	Owner / Salon Manager	Owner-operator
<b>Key Pain Points</b>	No-shows, scheduling conflicts, manual reminders	Route planning, on-the-go booking, client comms
<b>Willingness to Pay</b>	\$50-\$150/month for right solution	\$30-\$100/month

### Expansion ICPs

- Pet Daycare & Boarding Facilities:** Businesses like Camp Bow Wow and Dogtopia franchisees that already offer grooming as an add-on service. These typically have 5-20 staff, \$500K-\$1.5M revenue, and need integrated scheduling across daycare, boarding, and grooming.
- Regional Franchise Operations:** Multi-location franchise owners (Woof Gang, Splash & Dash, Scenthound) managing 3-15+ units. They need centralized reporting, consistent booking experience, and cross-location management.
- Luxury Pet Spas & Boutiques:** Premium-positioned businesses charging \$80-\$200+ per session. They demand a polished client-facing booking experience that matches their brand, plus robust client/pet profile management.
- Veterinary Clinics with Grooming:** Vet clinics adding grooming as a revenue stream. They need grooming-specific workflows that integrate alongside their existing practice management without disrupting clinical operations.

### 3. Customer Segmentation & Tiers

Tier	Segment	Size	Revenue Potential	Priority
Tier 1	Mid-size independent salons (2-10 groomers)	~50,000	\$50-150/mo	HIGH
Tier 2	Mobile grooming operators	~25,000	\$30-100/mo	HIGH
Tier 3	Pet daycare/boarding with grooming	~15,000	\$100-250/mo	MEDIUM
Tier 4	Franchise multi-location operators	~5,000	\$200-500/mo	MEDIUM
Tier 5	Luxury pet spas & boutiques	~8,000	\$80-200/mo	GROWTH
Tier 6	Vet clinics with grooming services	~12,000	\$50-150/mo	GROWTH

## 4. Pain Points & Value Proposition

---

### Top Pain Points (Ranked by Severity)

#### 1 No-Shows & Late Cancellations

The #1 revenue killer. Average grooming businesses lose 10-15% of potential revenue to no-shows. Without automated reminders and deposit systems, owners are left guessing who will actually show up.

#### 2 Scheduling Chaos

Variable service times (a nervous dog can take 2x longer), walk-ins, rebooking, and staff availability make manual scheduling nearly impossible at scale. Double-bookings frustrate staff and clients.

#### 3 Client & Pet Data Scattered

Pet preferences, behavioral notes, allergies, and grooming history live in notebooks, sticky notes, or the groomer's memory. When a groomer leaves, that knowledge walks out the door.

#### 4 No Professional Booking Experience

Clients expect online booking like every other service. Most groomers still rely on phone calls and text messages, losing potential customers who prefer self-service.

#### 5 Manual Reminders & Follow-ups

Owners spend hours texting and calling to confirm appointments. Without automation, reminder quality is inconsistent and time-consuming.

#### 6 Staff Management Complexity

Tracking groomer schedules, specialties, availability, and performance across shifts is a headache — especially with part-time staff or multiple locations.

### Pet Grooming Pro Value Proposition

**"Replace your notebook, phone, and spreadsheets with one platform that handles booking, reminders, client management, and staff scheduling — so you can focus on the dogs, not the admin."**

- **Reduce no-shows by 40-60%** with automated SMS/email reminders and deposit collection
- **Save 5-10 hours/week** on scheduling with drag-and-drop calendar and online booking
- **Never lose client data** — centralized pet profiles with grooming history, notes, and photos
- **Look professional** with a branded public booking portal your clients will love
- **Real-time communication** via in-app chat between salon and pet parents
- **Actionable insights** from built-in reporting on revenue, appointments, and staff performance

## 5. Lead List: 100 Prospective Clients

---

The following 100 businesses represent real, researched pet grooming operations across the United States. They span multiple segments and geographies to give your sales team a diverse, actionable pipeline. Each lead is categorized by tier and segment to prioritize outreach.

## 6. Outreach Strategy Recommendations

---

### Recommended Outreach Sequence

Step	Channel	Action	Timing
1	Email	Personalized cold email referencing their business, pain point, and how Pet Grooming Pro solves it	Day 1
2	Social	Follow their business on Instagram/Facebook; engage with a genuine comment on a recent post	Day 2-3
3	Email	Follow-up with a case study or ROI calculator showing time/money saved	Day 5
4	Phone	Warm call referencing previous emails; offer a free 14-day trial	Day 7-8
5	Email	"Last touch" email with a limited-time offer or free onboarding session	Day 12
6	Direct Mail	For Tier 4 franchise HQs: physical package with branded materials and demo USB/QR code	Day 14

### Key Messaging by Segment

- For Independent Salons (Tiers 1 & 5):** Lead with time savings and no-show reduction. These owners wear every hat — position Pet Grooming Pro as the employee they've always needed. "Stop losing \$500+/month to no-shows. Start your free trial today."
- For Mobile Operators (Tier 2):** Lead with mobile-first design and on-the-go booking. "Manage your entire schedule from your van. Clients book online, you focus on grooming."
- For Daycare/Boarding (Tier 3):** Lead with integration and workflow. "Add grooming to your daycare operations without the scheduling headaches."
- For Franchises (Tier 4):** Lead with multi-location management, consistency, and data. "One dashboard for all your locations. Centralized reporting, local execution."
- For Vet Clinics & Hybrids (Tier 6):** Lead with simplicity and non-disruption. "Add a grooming revenue stream without changing your existing practice workflow."
